

# USDA Declaration of Noninfectious Material

To Whom it may concern:

This statement is in regards to canine sample(s) submitted to Animal Genetics, Inc. in the United States and must be included with each shipment.

The sample(s) enclosed in, \_\_\_\_\_ (Invoice or Tracking Number), are being submitted for testing for genetic traits and/or genetic health conditions at Animal Genetics, Inc. Each canine sample consists of either two small dehydrated buccal brushes, or a dehydrated blood spot on a PermaCode card.

The animal(s) are not presumed to have any infectious health condition that may be transmittable to humans and the origin material has not been inoculated with or exposed to any livestock or poultry disease agent (USDA Guideline 1102).
